Rosemead, Ca 91770

Allan,

It is with great pleasure that I pass on accolades for another job well done!

Your team has repeatedly assisted Relocation Systems, Inc. to meet or exceed our customer's expectations through the development of value-added services. With your team's diverse technical background, we have successfully met the challenges set forth by our customers, it is comforting to know your team is capable of rising to the challenge.

A personal note of thanks for your help with our in-house system, Susan and I both appreciate your assistance in identifying and solving the glitch discovered in the Word Perfect programs.

I look forward to working with you again real soon.

Sincerely,
Relocation Systems, Inc.

Chris Fries
Vice President
