To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for VisionQuest, Integrated Technologies, Inc.

I have worked with VisionQuest for the past six years and have found them to be creative, professional, dedicated and very knowledgeable in their field. They have been a tremendous asset to me whenever I have needed their expertise and talents towards designing and maintaining our award-winning website.

Over the past several years, TUSD's website has won the Golden Web Award from the International Association of Web Masters and Designers. The award is presented to those sites whose web design, originality and content have achieved levels of excellence. Receiving the Golden Web Award means we continue to make our website more informative, easy to navigate and user friendly.

Allan and Sue Browning, owners of VisionQuest, are outstanding individuals who work with boundless enthusiasm on TUSD website projects that benefit our students, teachers, administrators, staff members, parents and community members. They are always there when you need them!

I highly recommend VisionQuest, IT for any future website or technology work in the public education field. They have a lot to offer any school district and community.

Sincerely,

Mark Eliot  
Director of Communications and Public Information  
Tustin Unified School District
